

# CAPACITY GAME

## OVER FLOW AND YOU LOSE!

### What you will need:

- a container e.g. jug
- 2 smaller containers that are the same size e.g. spoons
- water
- dice

### How to Play:

1. Start with an empty container.
2. First player roll the dice. The number rolled equals the amount of spoons you have to put into the container.
3. Player 2's turn.
4. Repeat until the container over flows! If you make it over flow then you lose!

Can you use the vocabulary as you play?
